[1]NIST is working to build the materials innovation infrastructure in support of the

Administration's Materials Genome Initiative. Our mission is to accelerate materials innovation with a material genome approach in order to decrease the cost and time-to-market by 50%. This site provides the gateway to access all the information on Materials Genome Initiative.

\*The Materials Genome Initiative (MGI) is a U.S. Federal government multi-stakeholder initiative to develop an infrastructure to accelerate and sustain domestic materials discovery and deployment in the United States. MGI is distinct from "Materials Genome", which is a registered trademark of MaterialsGenome, Inc. (a Pennsylvania Corporation). The use of the term "Materials Genome Initiative" is not intended to serve as an endorsement of or an association with the trademarked term "Materials Genome.?"
